

Issue 3. Category switching not working as expected.

Screenshots shared by Prashanth:

The screenshot shows the 'Modification 79 pra001' page for 'School Infrastructure MOU'. The 'Case Classification' is 'MOU' and the 'MOU Category' is 'School Infrastructure MOU'. The 'Is project assessed under bilateral agreement?' field has 'Yes' selected. The table below shows the stages and their dates:

Stage Name	Stage Deadline Date	Stage Forecast Date	Actual Date	Status	Comments
Prepare SEARs	28/04/2021	24/04/2021	21/04/2021	days taken	Test
Lodge MOD Report	23/04/2021	23/04/2021	21/04/2021	days taken	
EIS Review & Prepare Exhibition	05/05/2021				

The right sidebar shows the 'Current Stage' as 'SEARs' and the 'Review Mod Report' stage. The 'Details' tab is active, and the 'Attachments' and 'Resources' tabs are also visible. The 'Submit' button is at the bottom right.

The screenshot shows the 'Modification 79 pra001' page for 'Sydney Metro MOU'. The 'Case Classification' is 'MOU' and the 'MOU Category' is 'Sydney Metro MOU'. The 'Is project assessed under bilateral agreement?' field has 'Yes' selected. The table below shows the stages and their dates:

Stage Name	Stage Deadline Date	Stage Forecast Date	Actual Date	Status	Comments
Prepare SEARs	28/04/2021		21/04/2021	days taken	
Lodge MOD Report	23/04/2021		21/04/2021	days taken	
EIS Review & Prepare Exhibition	05/05/2021				
Exhibition	02/06/2021				

The right sidebar shows the 'Current Stage' as 'SEARs' and the 'Review Mod Report' stage. The 'Details' tab is active, and the 'Attachments' and 'Resources' tabs are also visible. The 'Submit' button is at the bottom right.

In both screenshots deadline dates for “EIS Review & Prepare Exhibition” are same which is expected because deadline days from MOU define SLA table is same for both Sydney Metro MOU and School Infrastructure MOU categories as per below screenshot.

EIS review

Case Type (required)	Logical Stage (required)	Complexity (required)	Category (required)	DeadlineDays	GoalDays	TimeCategory	Display Sequence
SSDMods	EIS Review & Prepare Exhibition Major		School Infrastructure MOU	14	11	Planner	3
SSDMods	EIS Review & Prepare Exhibition Major		Sydney Metro MOU	14	11	Planner	3

+ Add record

Note: If you are expecting prepare sears date to get changed, then that’s not correct assumption as prepare sears and Lodge Mod report stages are already completed those stages won’t be considered as part of recalculation on change of category. Anyhow I have also removed code related to displaying completed stages in the grid (Which is part of story 6716)

Issue 4. None switching not working as expected. (find the evidence in word doc)

EIS review

Case Type (required)	Logical Stage (required)	Complexity (required)	GoalDays	DeadlineDays	TimeCategory	Display Sequence
SSDMods	EIS Review & Prepare Exhibition Major		11	14	Planner	3

+ Add record

So 21/04/2021 + 14 is 05/05/2021.

Note: If you are expecting prepare sears date to get changed, then that’s not correct assumption as prepare sears and Lodge Mod report stages are already completed those stages won’t be considered as part of recalculation on change of category. Anyhow I have also removed code related to displaying completed stages in the grid (Which is part of story 6716)
